Local Navigation Notes:

There is a long but well-marked channel, beginning South of Noank, running Northwards through Mystic Harbor to Mystic Seaport.

The nearest major navigation mark is "LIS079" R"20" at N41°18.17' W071 °58.37'.

Several boatyards and marinas branch off the channel.

You will need to pass under the Mystic River Railroad Draw Bridge, which opens on signal. If going to the Seaport you will also need to pass through the Mystic River US 1 Bascule Bridge. 7:40am to 6:40pm the bridge opens 40 minutes past the hour and on signal at other times via VHF channel 9 and 13.

Note: Boats moving with the tide have right of way when the bridge opens.

Communications:

1. VHF Radio Channel 72 is used by SUS for inter-boat communication.
2. Skippers cell phones may be used on occasion for communication.
3. It is recommended that each skipper check in with the lead skipper at 15 minutes after each hour , and for safety reasons, upon arriving at the scheduled destination.
4. Any skipper deviating from the planned destinations shall notify the lead skipper of that skipper's alternative destination.

Miscellaneous information:

Contact the Lead Skipper prior to the Cruise date for other information.
